Game Identity / Mantra

A 3D stealth horror adventure about escaping a dark, abandoned hospital while the dead aid you and the living hunt you.

Design Pillars

- Atmospheric Horror & Stealth: Navigating dark hallways full of hostile staff requires patience, timing, and quick movement.
- Ghost Helpers: Talk to good ghosts to get healed and find directions
- Hands-On Challenges: Solve room puzzles before unlocking the next level

Genre/Story/Mechanics Summary:

- Genre: Thriller escape room game
- Story: The players start in a dark, eerie hospital. Their goal is to escape the hospital and avoid hostile NPCs throughout the hallways. Through the different levels (floors) many key items will be scattered around the map to be interacted by the player or provided by friendly NPCs (ghosts). The ghosts will give the player directions or healing items to help them survive.
- Mechanics: Floors/levels, enemies' line of sight, keys and healing items, room-based puzzles, main challenges, friendly NPCs, and jump scares.

Features

- Moving NPCs: Doctors & nurses walk paths, chase you on sight, and attack.
- Level Challenges: Each floor requires completing a main task. You cannot leave a level until you complete its main challenge.
- Locked Rooms: Some rooms will have a puzzle to be solved or have items scattered around the map to be unlocked.
- Screen Display (HUD): Shows health, the active level challenge and player inventory
- Menu Systems: Start menu before the game starts, Pause menu to quit or restart anytime

Interface

Input	Action	Description
W / A / S / D	Movement	Move the player around
Shift	Sprint	Run faster for a limited amount of time based on the stamina
Ctrl	Crawl/Crouch	Crouch down to get into smaller spaces
E	Interact	Interacts with doors, items and NPCs
Left Mouse Button	Use Item	Use the currently equipped item in hand
F	Flashlight	Turn the flashlight on or off
Tab	Inventory	Open player inventory
Esc	Menu/ Pause game	Open the pause menu

Art Style

- Style: Messy broken hospital, locked doors, dark shadows with bright flashlight beams
- Visual FX for smooth character movement animation

Music/Sound

- Audio:
    - Ambient sound (suspense)
    - Danger sound (panic, urgency, tension)
- Sound effects (SFX):
    - Beep sound effect (alertness)
    - Whoosh sound effect (speed tension)
    - Unlock door sound effect (hope, curiosity)
    - Echo sound effect (isolation, loneliness, unease)
    - Water drop sound effect (creepy, coldness)
    - Clock tick sound effect (pressure, anxiety, impatience)

Team Members

Luis Angelo Primero, Waleed Muhammad Nazam, Kaci Luu, Jia-Yu Joy Ho, Farwah Bakhsh

Development Roadmap / Team members' roles:

- Gameplay Programmer: Angelo, Waleed, Joy , Kaci, Farwah
- AI Programmer: Angelo
- UI Programmer: Waleed
- Audio/Effects Programmer: Kaci
- Level Designer: Joy
- Technical Designer: Farwah
- Quality Assurance (QA) Tester: Joy / Kaci
